Your watch

**ULTRA-SLIM, SECONDS, SELF-WINDING
CALIBRE 913, UP TO 40-HOUR AUTONOMY.**

6104

6104-2930

Watch model **6104-2930** is adjusted in the same way.

THE CROWN HAS TWO DISTINCT POSITIONS:

Position A, crown in manual-winding position.

Position B, crown pulled out to time-setting position, enabling adjustment of the hours and minutes. In this position the seconds hand can be locked by turning the crown very slightly backwards, enabling the watch to be synchronised with an hour signal.

Push the crown back in to position A once the time has been set.
